

MASTER PERFORMANCE-BASED RECOVERY & DATA AUDIT AGREEMENT

This Performance Services Agreement (the "Agreement") is entered into by and between:

Provider Account: Amit Gupta, acting as Principal Officer and Managing Director for and on behalf of Optima Workflows ("Provider").

Client: The corporate enterprise executing this digital signature tracking line ("Client").

1. SCOPE OF SERVICES

Provider agrees to deploy its proprietary autonomous data reconciliation script matrix to analyse Client's historical accounts payable invoices, purchase orders, shipping manifests, and inventory receiving data streams to isolate supplier overcharges, transit discrepancies, and structural billing leaks.

2. PERFORMANCE-BASED RATE

Client shall pay **zero dollars (\$0.00)** upfront in operational deposit or technical setup retainers. Compensation under this agreement is strictly performance-based, calculated at a **flat forty percent (40.00%)** split of the gross financial savings, line-item recovery value, or short-payment deduction margins identified and isolated by Provider's code structures.

3. SETTLEMENT & USD BANK WIRE ROUTING

Upon completion of any data execution run, Provider will log all identified discrepancies on Client's private ledger and issue a summary statement. Client's accounting department shall apply these isolated figures as an immediate Short-Payment Deduction on their upcoming month-end vendor balance statements, reducing their cash outflow to the supplier.

Client agrees to execute a USD bank wire transfer for Provider's 40% performance share to the designated bank account of Amit Gupta within seven (7) business days of data report delivery.
